In my personal standard of academic integrity, using AI content generators for this submission is...	◉	○	○	○	○

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

There is a lot of writing in this project, and so as long as AI use is being double checked and cross referenced in terms of actually being correct information I think it makes sense to use.

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) *

It helped get through writer's block for the broad explanations of things, we know what we want our application to do but to put it neatly into words can be tough, AI helped there. AI also helped conceptualize design when I used figma for our prototypes.

9. For this submission, how would you rate the relative contribution made by your versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Fair

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) *

Chatgpt, I used it like I would google to ask it about things such as wireframes and prototypes (what the differences are) and things like what things does a flight website or hotels website need to show its users.

11. How confident were you in AI's responses that you received? *

- (●) Confident
- ( ) Somewhat confident
- ( ) Neutral
- ( ) Somewhat not confident
- ( ) Not confident
- ( ) I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) *

I would cross-reference with google or going to actual websites (like expedia for flying, hyatt for hotels, etc).

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. *

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

At certain times what I would ask would give me a pretty generic response and asking to expand further was not really giving me what I wanted, so I would turn to google.

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

As mentioned prior, I mostly used AI to verify the definitions of things or summarize broad concepts. I also used it to help visualize potential designs for our prototypes.
